

Your peace of mind, now available from the age of 40.

breast screening

If you ran a state-of-the-art breast centre, experienced in offering rapid diagnosis, pioneering treatment and dedicated support, wouldn't you offer regular breast screenings to women as early as possible? From the age of 40.

We would.

And we do, at The London Clinic Breast Centre.

Call 020 7616 7766 to book a personalised screening for as little as £200.
