Please note:

Antibodies marked with an * are currently outside of our scope of UKAS/ISO 15189:2012 accreditation. These antibodies have been verified at The London Clinic, to reflect clinical use. Clinical acceptance has been achieved for these tests. However, the expected staining characteristics have not been formally validated by the manufacturer.

Last updated: 07/03/25

Please also note that any tests that are not listed on this repertoire will be sent to an external laboratory for testing. For more information please email:
